

## Florida Integrated Prevention and Care Plan – Updated Activity Table

**STATUS KEY:**

● ?/Not started— Has not begun    
 ● In Progress— Being worked on but not implemented    
 ○ Ongoing— Actively being carried out    
 ● Already complete

NHAS Goal 1: Reducing new PWH			
Objective 1.1: By December 31, 2021, increase the proportion PWH who know their serostatus from 87.2% (2015) to 90%			
Strategy 1.1.A.: Expand routine HIV screening in health care settings (for example, hospitals, health centers, substance abuse disorder facilities, and emergency departments) as part of medical care			
Activity	Target Population	Performance Group/Metric(s)	Responsible Parties
1.1.A.1 - Develop monitoring and evaluation plan, to include data collection, quality assurance measures and feedback loops	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Evaluation [IP-126]	FDOH – HIV/AIDS Section (Performance Unit)
1.1.A.2 - Develop toolkits and resources to serve as a guidance to healthcare settings and community providers considering the addition of routine HIV screening with their services	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-117]	FDOH – HIV/AIDS Section (Prevention); AETC
1.1.A.3 - Provide training to DOH early intervention consultants (EICs) on targeted HIV screening strategies and ensure they have the skillset necessary to provide technical assistance to healthcare providers in their local areas	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Performance [IP-106]	EI CTL Field Representatives/Team Leader; HAPCs
1.1.A.4 - Support DOH staff, community providers and healthcare facilities by providing training, attending provider meetings, and providing education on the “opt-out” HIV screening law, rule and model protocols through collaboration with the AIDS Education and Training Center (AETC)	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-122]	EI CTL Field Representatives/Team Leader; HAPCs
Strategy 1.1.B.: Reduce stigma in communities and among healthcare setting staff around HIV testing to increase test acceptance, and alleviate health care seeking behavior among high-risk populations			
1.1.B.1 - Use statewide data to target areas and communities with highest incidence of HIV infection for HIV testing	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Direct Impact [IP-115] Evaluation [IP-126]	FDOH – HIV/AIDS Section (Performance Unit)
1.1.B.2 - Develop statewide social marketing and education initiatives that are age, culturally, and linguistically appropriate contain messaging on HIV testing and/or decreasing stigma	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Direct Impact [IP-112, IP-113]	FDOH – HIV/AIDS Section (Prevention)
1.1.B.3 - Incorporate messaging on decreasing stigma to the HIV 500/501 trainings and HIV 501 Update trainings conducted by field staff, specifically Early Intervention Consultants	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Performance [IP-106]	EI CTL Field Representatives/Team Leader; HAPCs
Objective 1.2.: By December 31, 2021, reduce the rate per 100,000 population of HIV transmissions diagnosed annually in Florida, from 24.5 per 100,000 population (2015) to 23.8 per 100,000 population (2021)			
Strategy 1.2.A.: Ensure universal access to and availability of pre-exposure prophylaxis (PrEP) and increase awareness of non-occupational post-exposure prophylaxis (nPEP)			
1.2.A.1 - Develop a statewide inventory of providers who are able and willing to prescribe PrEP and nPEP	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Direct Impact [IP-112, IP-116]	FDOH – HIV/AIDS Section (Prevention, Medical)
1.2.A.2 - Develop toolkits, guidelines and other resources to assist health department and community-based organizations in implementing PrEP and nPEP clinics	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-117]	FDOH – HIV/AIDS Section (Prevention, Medical)
1.2.A.3 - Expand the use of [Peer] PrEP navigators in counties/areas with active PrEP clinics	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Performance [IP-106]	FDOH – HIV/AIDS Section (Prevention, Medical)

Florida Integrated Prevention and Care Plan – Updated Activity Table, continued

1.2.A.4 - Develop social marketing and educational materials that contain information on PrEP and nPEP (basic information, how to access, etc.)	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Direct Impact [IP-112, IP-113]	FDOH – HIV/AIDS Section (Prevention, Medical)
1.2.A.5 - Explore non-traditional ways to purchase PrEP medications	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Women; Gay/Bisexual/Other MSM	Direct Impact [IP-109]	FDOH – HIV/AIDS Section (Medical, Prevention)
<b>Objective 1.3.:</b> By December 31, 2021, reduce the annual number of babies born living with HIV in Florida from 6 (2014) to less than 5.			
<b>Strategy 1.3.A.:</b> Ensure health care providers are complying with the opt-out HIV and STI screening law for pregnant women			
1.3.A.1 - Expand awareness and disseminate information regarding Florida’s opt-out HIV/STD testing law for pregnant women among health departments and community-based providers through medical associations, conferences, newsletters, and grand rounds.	Black HT Men/Women Hispanic HT Men/Women	Performance [IP-106] Performance Stakeholder Support & Engagement [IP-115]	FDOH – HIV/AIDS Section (Prevention, Medical); STD and Viral Hepatitis Section; USF Perinatal Prevention Program
1.3.A.2 [POSTPONED] – Educate, provide training opportunities, and provide technical assistance for OB/GYN providers which provide services to PWH and other high-risk pregnant women through the Department’s contract with USF Perinatal Prevention Program	Black HT Men/Women Hispanic HT Men/Women	Direct Impact [IP-116] Stakeholder Support & Engagement [IP-122]	FDOH – HIV/AIDS Section (Prevention, Medical); USF Perinatal Prevention Program
1.3.A.3 - Monitor cases of HIV-exposed infants to assess provider compliance with the opt-out HIV testing law	Black HT Men/Women Hispanic HT Men/Women	Performance [IP-108] Direct Impact [IP-116]	FDOH – HIV/AIDS Section (Prevention, Surveillance, Medical); USF Perinatal Prevention Program; STD and Viral Hepatitis Section
<b>Strategy 1.3.B.:</b> Increase awareness among women of childbearing age about HIV testing and perinatal prevention strategies			
1.3.B.1 - Continue to fund Targeted Outreach for Pregnant Women (TOPWA) service providers to provide HIV testing, education, outreach and linkages for pregnant women living with HIV to decrease perinatal HIV transmission.	Black HT Men/Women Hispanic HT Men/Women	Direct Impact [IP-109] Budget [IP-125]	FDOH – HIV/AIDS Section (Prevention)
1.3.B.2 - Maintain social marketing and media efforts around HIV/STD testing and perinatal prevention strategies to reduce stigma and increase awareness	Black HT Men/Women Hispanic HT Men/Women	Direct Impact [IP-112]	FDOH – HIV/AIDS Section (Prevention, Medical); STD and Viral Hepatitis Section; USF Perinatal Prevention Program
1.3.B.3 - Expand information on Department websites regarding Florida’s opt-out HIV/STD testing law for pregnant women and perinatal prevention resources	Black HT Men and Women Hispanic HT Men and Women	Direct Impact [IP-112, IP-116]	FDOH – HIV/AIDS Section (Prevention, Medical); STD and Viral Hepatitis Section
<b>Strategy 1.3.C.:</b> Ensure access to the Baby RxPress program for all women in need			
1.3.C.1 - Evaluate usage and cost benefit of Baby RxPress program	Black HT Men and Women Hispanic HT Men and Women	Budget [IP-125]	FDOH – HIV/AIDS Section (Prevention, Medical)
1.3.C.2 – Expand the number of Walgreens locations participating in the Department’s Baby RxPress program to increase accessibility and availability of the program	Black HT Men and Women Hispanic HT Men and Women	Stakeholder Support & Engagement [IP-120]	FDOH – HIV/AIDS Section (Prevention)
<b>NHAS Goal 2: Increasing access to care and improving health outcomes for PWH</b>			
<b>Objective 2.1.:</b> By December 31, 2021, reduce the number of HIV-related deaths from 4.5 per 100,000 (2014) to 3.9 per 100,000.			
<b>Strategy 2.1.A.:</b> Reduce barriers for linkage to and retention in care			
2.1.A.1 - Perform an analysis to include a workgroup/ “think tank” to examine cost per patient in each area and if funding meets service demand	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Budget [IP-125] Evaluation [IP-126]	FDOH – HIV/AIDS Section (Performance Unit)

Florida Integrated Prevention and Care Plan – Updated Activity Table, continued

2.1.A.2 - Develop a plan to analyze allocation of funding (Ryan White and General Revenue) in each area to assess if funding is reflective of the proportion of the epidemic in the area and adequate to meet the demand for core services	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-119] Budget [IP-125]	FDOH – HIV/AIDS Section (Patient Care, Medical)
2.1.A.3 – Develop a strategy to assess risk, barriers, and protective factors to keeping PWHA retained in/engaged in care (MMP) using a streamlined process as state and local levels	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Evaluation[IP-126]	FDOH – HIV/AIDS Section (Patient Care, Prevention, Medical)
2.1.A.4 - Increase the availability of nutritional counseling to educate persons living with HIV clients on the importance of proper diet and nutrition	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-115]	FDOH – HIV/AIDS Section (Patient Care, Medical)
2.1.A.5 – Ensure newly identified HIV+ incarcerated persons are linked to appropriate services prior to release	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-115]	Department of Corrections Pre-Release Planning Program Statewide Coordinator
<b>Strategy 2.1.B.: Increase the number of PWH on ART</b>			
2.1.B.1 - Educate healthcare settings and providers on the significance of immediate treatment once diagnosed and their role in ensuring PWH access to the Ryan White program.	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-122]	FDOH – HIV/AIDS Section (Patient Care, Medical);
<b>Strategy 2.1.C.: Increase the number of medications that treat HIV-related and co-morbid conditions on the statewide formulary and ADAP formulary</b>			
2.1.C.1 - Work with surveillance to determine top five co-morbidities associated with HIV-related deaths and the medical team to determine appropriate treatments	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Performance [IP-107]	FDOH – HIV/AIDS Section (Surveillance, Data Integration, Medical)
2.1.C.2 - Work with the HIV/AIDS Section Workgroup on ADAP, the budget unit and central pharmacy to expand the formulary	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Performance [IP-107] Budget [IP-125]	FDOH – HIV/AIDS Section (Patient Care, Medical); Central Pharmacy; ADAP Workgroup
2.1.C.3 - Educate HIV providers regarding the expanded formulary	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Performance [IP-107] Stakeholder Support & Engagement [IP-119]	FDOH – HIV/AIDS Section (Patient Care, Medical); AETC
<b>Strategy 2.1.D.: Strengthen the Department’s Clinical Quality Management (CQM) initiative</b>			
2.1.D.1 - Ensure each RW service category has updated and appropriate standards of care for prompt and equitable services statewide	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Performance [IP-107] Evaluation[IP-126]	FDOH – HIV/AIDS Section (Patient Care)
2.1.D.2 - Establish systems to track medication adherence among RW clients	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-116]	FDOH – HIV/AIDS Section (Patient Care, Medical, Surveillance, Prevention, Data Integration)
<b>Objective 2.2.: By December 31, 2021, increase the proportion of PWHs linked to care in 30 days from 65.5 percent (2015) to 73.9 percent.</b>			
<b>Strategy 2.2.A.: Implement Data-2-Care Strategies</b>			
2.2.A.1 - Maintain the current Antiretroviral Treatment and Access to Services (ARTAS) providers and explore opportunities to expand the use of the strengths-based case management intervention	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-106, IP-116]	FDOH – HIV/AIDS Section
2.2.A.2 - Strengthen collaboration between DIS and linkage specialists at the local level and across county lines	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Performance [IP-106]	FDOH – HIV/AIDS Section, STD and Viral Hepatitis Section
2.2.A.3 - Develop a streamlined protocol to identify and inform service providers when clients stop medication pick up and fall out of care	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-119]	FDOH – HIV/AIDS Section (Patient Care, Medical)
<b>Strategy 2.2.B.: Ensure all newly diagnosed persons have immediate access to care and ART</b>			

Florida Integrated Prevention and Care Plan – Updated Activity Table, continued

2.2.B.1 - Monitor and evaluate phase one Test and Treat sites to understand best practices and challenges experienced with program implementation	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Performance [IP-107] Evaluation[IP-126]	FDOH – HIV/AIDS Section (Medical, Prevention, Patient Care), AETC
2.2.B.2 - Explore options through the Department to purchase starter packs of HIV medications to facilitate expedited treatment and finalize Test and Treat protocol	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-116]	FDOH – HIV/AIDS Section (Medical, Patient Care), Central Pharmacy
2.2.B.3 - Provide education and training to all health departments, community health centers, hospitals and other community-based partners on the Test and Treat initiative	Black HT Men and Women, Black IDU, Hispanic HT Men and Women, Hispanic IDU, Transgender Men, Transgender Women; Gay and Bisexual Men of all races/ethnicities	Performance [IP-107] Stakeholder Support & Engagement [IP-122]	FDOH – HIV/AIDS Section (Medical, Patient Care, Prevention), AETC, Florida Comprehensive Planning Network (FCPN) members
2.2.B.4 - Promote the Test and Treat initiative through medical associations, grand rounds, professional conferences and other such opportunities	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-117]	FDOH – HIV/AIDS Section (Medical, Prevention, Patient Care), AETC
2.2.B.5 - Conduct QA on Test & Treat model to identify opportunities to streamline processes and reduce barriers to Test and Treat		Performance [IP-126]	FDOH – HIV/AIDS Section (Performance Unit)
<b>Strategy 2.2.C.: Reduce barriers to linkage (for example, stigma, structural issues, processes)</b>			
2.2.C.1 - Explore ways to streamline distinct processes per priority groups affected by HIV at the state and local level that pose barriers to linkage	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Performance [IP-107]	FDOH – HIV/AIDS Section (Prevention, Patient Care), STD and Viral Hepatitis Section
2.2.C.2 - Identify opportunities for improvement within the Ryan White eligibility process	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Performance [IP-106]	FDOH – HIV/AIDS Section (Patient Care)
<b>Objective 2.3.: By December 31, 2021, increase the proportion of persons living with HIV retained in care from 64 percent (2014) to 71 percent.</b>			
<b>Strategy 2.3.A.: Ensure that care systems include access to support and behavioral health services</b>			
2.3.A.1 - Strengthen partnerships between HIV care providers and substance abuse treatment centers and mental health providers	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-120]	FDOH – HIV/AIDS Section (Patient Care, Medical)
2.3.A.2 – Ensure HIV care providers have access to support and behavioral health services on-site or have MOAs with local providers to facilitate linkage to these services	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-120]	FDOH – HIV/AIDS Section (Patient Care)
<b>Strategy 2.3.B.: Reduce the barriers to retention in care (for example, stigma, structural issues, transportation, etc.)</b>			
2.3.B.1 - Identify barriers to care on the part of providers through community engagement <b>POSTPONED</b>	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-122]	FDOH – HIV/AIDS Section (Patient Care, Prevention, Medical)
2.3.B.2 – Assess service and expenditure patterns	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Budget [IP-125]	FDOH – HIV/AIDS Section (Patient Care, Prevention, Medical); AETC
2.3.B.3 – Expand social media and marketing efforts to integrate messaging around the importance of retention in care on health outcomes	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-113]	FDOH – HIV/AIDS Section (Patient Care, Prevention)
<b>Strategy 2.3.C.: Increase the number of PWHs that are in stable housing, within the RW Part (A, B, C, D, ADAP) programs</b>			
2.3.C.1 - Establish a baseline percentage of stable housing achieved through mortgage assistance or rental assistance.	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-115] Evaluation[IP-126]	FDOH – HIV/AIDS Section (Patient Care)
2.3.C.2 - Increase the number of PWH served by the State’s HOPWA Program (not City HOPWA) who are in a stable housing arrangement	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-115]	FDOH – HIV/AIDS Section (Patient Care)

<b>Objective 2.4.:</b> By December 31, 2021, increase the proportion of persons living with HIV with a suppressed viral load (<200 copies/mL) from 59 percent (2015) to 80 percent.			
<b>Strategy 2.4.A.:</b> Increase the number of diagnosed PWHs on ART and implement effective adherence strategies			
2.4.A.1 - Identify gaps and constraints that impede PWH from achieving viral suppression	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-115] Evaluation [IP-126]	FDOH – HIV/AIDS Section (Patient Care, Medical)
2.4.A.2 - Support and implement adherence interventions for those not virally suppressed through industry partner collaboration and enhancing systems, strategies, and tools to re-engage clients	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-122]	FDOH – HIV/AIDS Section (Prevention, Patient Care)
2.4.A.3 - Seek provider input on effective strategies through quality management activities <b>NOT STARTED</b>	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-114]	Local areas
<b>Objective 2.5.:</b> By December 31, 2021, increase the proportion of ADAP clients with a suppressed viral load (<200 copies/mL) from 89 percent (2014) to 94 percent			
<b>Strategy 2.5.A.:</b> Develop and implement effective adherence strategies for ADAP clients			
2.5.A.1 - Research the literature for models that have proven success		Performance [IP-106]	FDOH – HIV/AIDS Section (Patient Care, Performance)
2.5.A.2 - Interview clients who remain suppressed to understand effective strategies and approaches <b>NOT STARTED</b>	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-122]	FDOH – HIV/AIDS Section (Patient Care)
2.5.A.3 - Determine the role of ADAP staff and pharmacists in obtaining better outcomes for ADAP clients than other populations	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Performance [IP-106] Budget [IP-125]	FDOH – HIV/AIDS Section (Patient Care, Medical)
<b>Strategy 2.5.B.:</b> Enhance support for treatment adherence			
2.5.B.1 - Establish a protocol for adherence intervention referral services	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Performance [IP-119]	FDOH – HIV/AIDS Section (Prevention, Patient Care, Medical)
<b>Strategy 2.5.C.:</b> Enhance program operations to facilitate ease of access to medication treatment			
2.5.C.1 - Evaluate existing infrastructure for service delivery effectiveness to identify opportunities for community mobilization	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-112]	FDOH – HIV/AIDS Section (Patient Care)
2.5.C.2 - Increase local communication with external pharmaceutical providers statewide for EFA at 340b reimbursement pricing	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-112, IP-116]	Local areas
2.5.C.3 - Add new antiretroviral classes to the ADAP formulary within 90 days of publication in the PHS guidelines	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-119]	FDOH – HIV/AIDS Section (Patient Care, Medical); Central Pharmacy
<b>Strategy 2.5.D.:</b> Increase the number of ADAP clients who are covered by insurance plans			
2.5.D.1 - Expand the range of insurance options supported by ADAP	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Budget [IP-120]	FDOH – HIV/AIDS Section (Patient Care)
2.5.D.2 - Minimize eligibility requirements for insurance coverage supported by ADAP	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-119]	FDOH – HIV/AIDS Section (Patient Care)
2.5.D.3 - Ensure client readiness for insurance coverage	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-115]	FDOH – HIV/AIDS Section (Patient Care)

<b>NHAS Goal 3: Reducing HIV related disparities and health inequities</b>			
<b>Objective 3.1.:</b> By December 31, 2021, reduce disparities in the rate of HIV transmissions diagnosed annually by 5% among Florida’s at-risk target populations.			
<b>Strategy 3.1.A.:</b> Ensure universal access to and availability of PrEP and increase awareness of nPEP			
3.1.A.1 – Develop multi-lingual social marketing and educational materials that contain information on PrEP and nPEP (basic information, how to access, etc.) specific to Florida’s at-risk target populations respectively	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-112, IP-113]	FDOH – HIV/AIDS Section (Prevention, Medical)
3.1.A.2 - Increase awareness and education on PrEP and nPEP to Florida’s most impacted groups including: Black, Hispanic, gay, bisexual, and Transgender People of Color	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-112, IP-113]	Local areas
3.1.A.3 - Develop a statewide inventory of providers who are able and willing to prescribe PrEP and nPEP	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-112] Stakeholder Support & Engagement [IP-120]	FDOH – HIV/AIDS Section (Prevention, Medical)
<b>Strategy 3.1.B.:</b> Promote culturally appropriate HIV prevention activities among the general public, at-risk communities, community leaders, and policy makers			
3.1.B.1 - Increase social media marketing on stigma related to related to Florida’s at-risk target populations respectively	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-112]	Local areas
3.1.B.2 - Expand the Business and Faith Responds to AIDS (BRTA, FRTA) initiatives in communities with the highest HIV disease burden with the incorporation of cultural competency and capacity building assistance for minority providers	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-113]	FDOH – HIV/AIDS Section (Prevention) 32%
3.1.B.3 - Expand HIV prevention services through contracted community-based organizations to Florida’s key affected populations respectively	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-119]	
3.1.B.4 - Ensure the availability of cultural competency on Florida’s at-risk populations to front-line HIV prevention and care staff	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-122]	FDOH – HIV/AIDS Section (Prevention, Patient Care)
3.1.B.5 - Promote capacity building assistance to increase LGBTQ+ Ally providers	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Stakeholder Support & Engagement [IP-122]	FDOH – HIV/AIDS Section (Prevention)
<b>Strategy 3.1.C.:</b> Reduce barriers to service access and address social determinants that increase risk			
3.1.C.1 – Expand and strengthen community partnerships of traditional and non-traditional stakeholders to support prevention and care services specifically for Florida’s key affected populations	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-120]	Local areas
3.1.C.2 - Educate public officials on addressing a policy that acts as barriers to HIV prevention information and activities	Black HT Men/Women, Black IDU, Hispanic HT Men/Women, Hispanic IDU, Transgender Men, Transgender Women; Gay/Bisexual/Other MSM	Direct Impact [IP-114]	FCPN and/or external stakeholders
<b>Objective 3.2.</b> By December 31, 2021, reduce the annual number of newly diagnosed PLWH in Florida’s men who have sex with men (MSM) population from 2,761 (2014) to 2,397.			
<b>Strategy 3.2.A.:</b> Ensure universal access and availability of PrEP and increase awareness of nPEP			
3.2.A.1 - Explore non-traditional ways to fund and purchase PrEP medications	MSM	Inventory of methods for purchasing PrEP medications	FDOH – HIV/AIDS Section (Medical, Prevention)
3.2.A.2 - Develop social marketing and educational materials that contain information on PrEP and nPEP (basic information, how to access, etc.) specifically for gay, bisexual and other MSM	MSM	Inventory of resources	FDOH – HIV/AIDS Section (Prevention, Medical)
3.2.A.3 - Increase awareness and education to Florida’s impacted MSM population on PrEP and nPEP	MSM	Number of trainings provided	FDOH – HIV/AIDS Section (Medical, Prevention)

Florida Integrated Prevention and Care Plan – Updated Activity Table, continued
